

Eden Bed Range

Form and function come together in the Eden Bed, offering a discrete yet ample and much needed storage space. A unique gas cylinder support system allows for a swift lift mechanism, keeping the mattress horizontal when the support system is fully opened. Hidden seamlessly beneath the bed, the amount of extra space you get is equivalent to that of a roomy dresser. Look for the Eden to rest easy in traditional to contemporary bedrooms.

Dimensions

WxDxH

Queen	161x225x108cm
King	194x228x108cm
Super King	204x228x180cm

Composition

Available in your choice of all fabric (removable), all leather, or fabric and leather combination upholstery. Solid birch wood headboard with plywood reinforcement, plywood side and end rails, all covered with polyurethane foam and fabric lining. Beech wood slat in metal frame with gas cylinder support system, opening vertically. Melamine base board creates storage compartments underneath. Black plastic (ABS) legs.
