## Humla Circular Table Range

This series of tables designed by the iconic Hans Bolling is timeless. Minimalism is maximised in this design. Stripping them to their bare essentials and so using the least material possible, and by doing so exposing their function beautifully. The simplicity of their design makes the Humla table immune to ageing. The range also expands to a square side table and shelving unit.

### Dimensions

Side  
Small Coffee  
Large Coffee

### WxDxH
